Enclosures:

- 1) Quotation for Pre-Mixer
- 2) Business Terms and Conditions

PRE-MIXER:-

Double Ribbon Screw Mixer

We add certain micro-ingredients (Minerals, Vitamins and Nutrients) in Poultry feed whose percentages is very low, generally less than 0.5% i.e. 4kgs in 1000kgs.If added directly in Feed mixer, it may not be dispersed homogeneously in whole batch.

By installation of Pre-mixer, we first dilute these micro ingredients in 50kgs or 100kgs of any of feed ingredients i.e. Rice Polish, DRB or Maize etc. After Pre-mixing when this pre-mixed feed ingredient will be added to feed mixer, will get homogenized and very accurate results are achieved. This same pre-mixer can be used for medicines also.
